WINTERSMITH'S

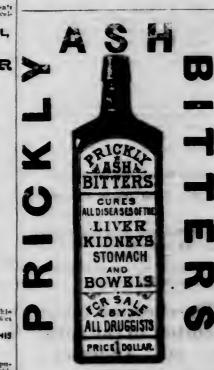

OFFICA OF THE COURSES-JOURNAL, LOUISVILLE Dr Wintersmith,

Nie: I waive a rule I have observed for many years, the value of your remedy prompting nie to say, in reply to your request, what I know of your Chill Cure. The private assurances of ite fincacy I had, and the good results of its effects I had observed ou Mr R W. Mereduth, who, for more man hiteen years, has been foremen of my office induced me to lest it in my family. The results have been entirely satisfactory. The first case was of two years' stauding, in which I believe every known remedy had been tried with temperary relief—the chills returning periodically and seemingly with increased severity. Your cure broke them at once, and there has been no recurrence of them for more than six months. The other case was of a midder form, and yielded more readily to other remedies; hut the chills would return a tinervaluatil your medicine was used, since which time, now several mutths, they have cattrely disappeared. From the opportunity I have had to judge, I do not hesitate to express my belief that your Chill Cura in a valuable opecific, and performs all you promise for it.
